DESCRIPTION

First Atlantic Personal Investment Plan is an open-ended mutual fund scheme managed by First Atlantic Asset Management Company Ltd. The scheme is an investment vehicle established to invest in equities listed on the Ghana Stock Exchange, money market and fixed income instruments.

OBJECTIVE

The First Atlantic Personal Investment Plan is a long-term mutual fund designed to help investors secure their financial future through a structured and disciplined investment program. This fund is designed to help investors maximize returns on their investment over the medium to long term.

MAIN RISK FACTORS

Please refer to the Prospectus for a detailed explanation of risk factors. **INTEREST RATE RISK:** The Fund invests in bonds, the values of which usually rise and fall in response to changes in interest rates. **CREDIT RISK:** The Fund invests in bonds which are subject to the issuers' repayment capacity.

TARGET INVESTORS: Individuals, companies, societies, pension funds, churches, educational institutions & provident funds.
